

# 6KW-LR

## LONG RUN POWER GENERATOR

With over 20 years of experience in the development and production of heating equipment and thousands of systems delivered, we are proud to introduce the 6KW-LR Power Generator featuring extended run time up to 1000 hrs.

### FEATURES

- Up to 1000 hrs oil change intervals
- Quiet 1800 rpm, 3 cylinder diesel
- 6kw, 120/240VAC-60Hz generator
- Warranty 2 years /2000 hours
- Cold weather package
- Single side service
- Two socket outlets 25 amps
- Tamarack Industries Exclusive

### SPECIFICATIONS

- |                      |                               |
|----------------------|-------------------------------|
| • Power Output       | 6KW 120/240VAC /60 Hz         |
| • Engine             | 3 Cylinder                    |
| • Fuel Type          | Diesel                        |
| • RPM                | 1800                          |
| • Fuel Supply/Return | 3/8"/1/4"                     |
| • Fuel Consumption   | 1.0 GPH Max                   |
| • Run Time           | Dependant on Fuel Supply      |
| • Electrical Outlets | 2x HUBBELL 30A.125V Twistlock |
| • Weight             | 620 lbs                       |
| • L x W x H          | 45" x 25.5" x 28.5"           |

## Long Run Time

The 6KW-LR is powered by a 3 cylinder diesel engine and features oversized oil and fuel filters for long run times between servicing up to 1000 hrs.

## Single Side Service

The 6KW-LR is designed to be easy to service and features a large door where all filters are accessible.

## User Friendly Controls

The control panel features large, easy to use switches, digital hour meter and LED warning lights for ease of troubleshooting.

## Easy Mounting / Retrofit

The 6KW-LR generator has been designed for easy mounting on Heat King and Thawzall models. It is also backward compatible for mounting on units back to 2015.
